

If you are looking to build or renovate, KACIN is your trusted source.

KACIN General Contractors provides western Pennsylvania companies leading-edge contracting services.

- design/build approach
- building code resource
- total project management
- green building solutions
- pre-engineered systems

Our 50 years' experience, portfolio of more than 600 facilities, and track record of completing projects on-time and on-budget give building owners and developers perspective on this very important decision.

Contact Jeff Ferris at jferris@kacin.com or 724/327-2225.

"KACIN's ability to design and construct innovative space on-time and on-budget adds tremendous value to our business," says David Nicholson, president of Leed's, which manufactures promotional products. "The quality of KACIN's work, and their follow-through on all of their promises, are why we have been working with them for so many years."

— David Nicholson, President, Leed's Business Accessories
