

KACIN

It's No Accident That #1 Cochran Picked *KACIN*

The 15,000-sq.-ft. **KACIN**-built #1 Cochran Collision Center in Robinson gives the auto dealer everything they need to make damaged cars look brand-new: an eco-friendly paint booth that uses only water-soluble coatings, a large mezzanine structure for storing parts, spacious offices and a fenced-in vehicle storage area.

KACIN puts the same kind of quality and pride into every design/build project, whether it's new construction or expansion, always finishing on-time and on-budget. That's why #1 Cochran has turned to **KACIN** again and again.

Our attention to detail is no accident – it results from **50 years** of craftsmanship. Learn more by contacting **Jeff Ferris** at **724.325.222** or jferris@kacin.com
