

## Construct with Confidence

**KACIN General Contractors** is the preferred choice for design/build projects in southwestern Pennsylvania. Since 1960, we've helped our clients make informed building decisions within their timeframes and budgets, and follow through with exceptional project management. Most important, the experience, integrity and quality that we bring to each and every project is an investment in the communities we serve.

You can construct with confidence with KACIN. Read quotes from some of our appreciative clients at [kacin.com/kudos](http://kacin.com/kudos) and then contact Jeff Ferris at [jferris@kacin.com](mailto:jferris@kacin.com) or (724) 327-2225.
