

Proud to Be Part of the Legacy

Since 1903, Oakmont Country Club has had a storied history of champion-golf for both men and women.

The 2010 U.S. Women's Open will be added to that roster July 5-July 11 at what Johnny Miller called "the greatest course I ever played."

KACIN is proud to be part of this legacy as general contractor of the 2007 expansion and renovation of Architect Edward Stotz's Tudor Revival clubhouse, which is on the National Register of Historic Places.
